## Anti-P-Cadherin [6A9] Bulk Size Ab02535-10.3-BT

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This is a reformatted human IgG1 Fc Silent Fc Silent™ antibody, based on the original human IgG1 format, created for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Human IgG1, Fc Silent™, Kappa

**Clone Number:** 6A9

**Alternative Name(s) of Target:** Cadherin 3 type 1; Cadherin-3; Cadp; Calcium dependent adhesion protein placental; CDH3; CDHP; HJMD; P-cadherin (Placental); PCAD; Placental cadherin

**UniProt Accession Number of Target Protein:** P22223

**Published Application(s):** IP, WB, IF, IHC

**Published Species Reactivity:** Human

**Immunogen:** The original antibody was generated by immunizing mice against a 72-kilodalton (kDa) P-cadherin fragment from A-431 cells.

**Specificity:** The antibody is specific for P-Cadherin-1 (CDH3). P-Cadherin-1 is a calcium-dependent cell-cell adhesion glycoprotein comprised of five extracellular cadherin repeats, a transmembrane region and a highly conserved cytoplasmic tail.

**Application Notes:** The antibody detected human P-Cadherin from A431 cell lysate by Western blot analysis. The antibody was used to immunoprecipitate P-Cadherin. Further, the antibody was shown to have inhibitory activity, by disrupting P-cadherin-mediated cell-cell adhesion with A-431 cells (Lewis et al., 1994; PMID: 8006450). The antibody detected P-cadherin by immunofluorescence (Owens et al., 2000; PMID: 10708559).

**Antibody First Published in:** Lewis et al. Cadherin function is required for human keratinocytes to assemble desmosomes and stratify in response to calcium *J Invest Dermatol.* 1994 Jun;102(6):870-7.

[PMID:8006450](#)

**Note on publication:** The original paper describes the generation and characterization of the antibody.

## Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:**

Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
