## Anti-CIP2A [HL1925] Standard Size Ab02587-1.1

**Isotype and Format:** Mouse IgG1, Kappa

**Clone Number:** HL1925

**Alternative Name(s) of Target:** Cancerous inhibitor of protein phosphatase 2A; Cancerous inhibitor of PP2A; Protein CIP2A; p90 autoantigen; KIAA1524

**UniProt Accession Number of Target Protein:** Q8TCG1

**Published Application(s):** IHC (P), WB

**Published Species Reactivity:** Human

**Immunogen:** The original antibody was generated by immunizing mice with C-terminal CIP2A as an immunogen.

**Specificity:** This antibody binds human CIP2A (cancerous inhibitor of protein phosphatase 2A). CIP2A is an oncoprotein that inhibits protein phosphatase 2A (PP2A), stabilizes MYC, and is involved in the progression of several human malignancies. It promotes anchorage-independent cell growth and tumor formation. Antibodies against CIP2A are present in sera from many patients with gastric or prostate cancer and acts as prognostic marker in many cancers.

**Application Notes:** This antibody can be used for the immunohistochemical staining of CIP2a expressed on the surface of prostate cancer, benign prostatic hyperplasia and high grade prostatic intraepithelial neoplasia tissues (PMID: 32860375). This antibody can be for the identification of CIP2a protein from cell lysates using western blot (PMID: 31031016).

**Antibody First Published in:** [PMID:](#)

**Note on publication:**

### Product Form

**Size:** 100 µg Purified antibody.

**Purification:** Protein A affinity purified

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
