Anti-NORE1A [7C11-C5-D7] Standard Size Ab02691-10.3

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG format, for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Human IgG1, Fc Silent™, Kappa

Clone Number: 7C11-C5-D7

Alternative Name(s) of Target: Ras association domain-containing protein 5; New ras effector 1; Regulator for cell adhesion and polarization enriched in lymphoid tissues; RAPL

UniProt Accession Number of Target Protein: Q8WWW0

Published Application(s): IP, IF

Published Species Reactivity: Human

Immunogen: The original antibody was generated by immunizing mice against amino acids 119-416 of human NORE1A.

Specificity: The antibody recognizes an epitope in amino acids 363-416 in both NORE1A and NORE1B.

Application Notes: This antibody is recommended for the detection and analysis of NORE1A by immunofluorescence and immunoprecipitation.

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
