Anti-Nuclear Transport Factor 2 (NTF2) [5-E8] Standard Size Ab02698-1.1

Isotype and Format: Mouse IgG1, Kappa

Clone Number: 5-E8

Alternative Name(s) of Target: NTF2; NTF-2; Placental protein 15; PP15

UniProt Accession Number of Target Protein: P61970

Published Application(s): WB, IF

Published Species Reactivity: Human

Immunogen: The antibody was raised by immunizing BALB/c mice with a synthetic peptide corresponding to the N-terminal 14 amino acids (MGDKPIWEQIGSSF) of NTF2.

Specificity: The antibody is specific for human and *Xenopus* NTF2, recognizing an epitope on the N terminus.

Application Notes: Western blotting showed this antibody (IgG1 format) detects both human and *Xenopus* NTF2. Immunofluorescence was performed on BHK21 cells using this antibody, finding NTF2 is a nuclear protein (Steggerda et al, 2000; pmid: 10679025).

Antibody First Published in: Steggerda et al. Monoclonal antibodies to NTF2 inhibit nuclear protein import by preventing nuclear translocation of the GTPase Ran. *Mol Biol Cell*. 11(2):703-19 (2000)

[PMID:10679025](#)

Note on publication: The article describes the generation and characterization of the antibody.

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
