## Anti-Nuclear Transport Factor 2 (NTF2) [5-E8] Bulk Size Ab02698-23.0-BT

This chimeric rabbit antibody was made using the variable domain sequences of the original Mouse IgG1 format, for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Rabbit IgG, Kappa

**Clone Number:** 5-E8

**Alternative Name(s) of Target:** NTF2; NTF-2; Placental protein 15; PP15

**UniProt Accession Number of Target Protein:** P61970

**Published Application(s):** WB, IF

**Published Species Reactivity:** Human

**Immunogen:** The antibody was raised by immunizing BALB/c mice with a synthetic peptide corresponding to the N-terminal 14 amino acids (MGDKPIWEQIGSSF) of NTF2.

**Specificity:** The antibody is specific for human and Xenopus NTF2, recognizing an epitope on the N terminus.

**Application Notes:** Western blotting showed this antibody (IgG1 format) detects both human and Xenopus NTF2. Immunofluorescence was performed on BHK21 cells using this antibody, finding NTF2 is a nuclear protein (Steggerda et al, 2000; pmid: 10679025).

**Antibody First Published in:** Steggerda et al. Monoclonal antibodies to NTF2 inhibit nuclear protein import by preventing nuclear translocation of the GTPase Ran. Mol Biol Cell. 11(2):703-19 (2000)

[PMID:10679025](#)

**Note on publication:** The article describes the generation and characterization of the antibody.

### Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:** Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:**

1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
