## Anti-Staphylococcal enterotoxin B [LSEBg6] Standard Size Ab02812-1.159

This chimeric mouse antibody was made using the variable domain sequences of the original VHH format for improved compatibility with existing reagents assays and techniques.

**Isotype and Format:** Mouse IgG1-Fc fusion

**Clone Number:** LSEBg6

**Alternative Name(s) of Target:** entB; SEB; Enterotoxin type B

**UniProt Accession Number of Target Protein:** P01552

**Published Application(s):** ELISA

**Published Species Reactivity:** Staphylococcus aureus

**Immunogen:** The original antibody was isolated from a non-immune semisynthetic llama library constructed from blood samples (6 ml) collected from the left jugular vein of three research naïve mature llamas.

**Specificity:** This antibody binds enterotoxin B of Staphylococcus aureus (SEB).

**Application Notes:** The binding specificity of this antibody towards staphylococcal enterotoxin B was checked using ELISA. This antibody can also be used as a detection antibody for SEB in a sandwich ELISA. The original VHH antibody can detect SEB concentrations down to 0.05 ng/ml and 0.5 ng/ml in a sample (PMID:17165813).

**Antibody First Published in:** Goldman et al. Facile Generation of Heat Stable Antiviral and Antitoxin Single Domain Antibodies from a Semi-synthetic Llama Library. Anal Chem. 2006 Dec 15; 78(24): 8245–8255. [PMID:17165813](#)

**Note on publication:** A semisynthetic llama library was constructed from non-immune llamas and binders specific for live vaccinia virus (a smallpox virus surrogate), hen egg lysozyme, cholera toxin, ricin, and staphylococcal enterotoxin B were selected.

### Product Form

**Size:** 100 µg Purified antibody.

**Purification:** Protein A affinity purified

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -

20°C.

**Concentration:** 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
