Anti-U3 and U8 RNP [ASWA1] Standard Size Ab03250-10.0

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG1 format for improved compatibility with existing reagents assays and techniques.

Isotype and Format: Human IgG1, Kappa

Clone Number: ASWA1

Alternative Name(s) of Target: RNP; U3 ribonucleoprotein particle; U8 ribonucleoprotein particle; fibrillarin

UniProt Accession Number of Target Protein:

Published Application(s): IP, ELISA

Published Species Reactivity: Mouse

Immunogen: The original antibody was generated by injecting A.SW mice with mercury.

Specificity: This antibody can recognize and bind U3, U8 ribonucleoprotein particles (RNP) and fibrillarin.

Application Notes: This antibody is capable of immunoprecipitating U3 and U8 ribonucleoprotein particles (RNP) as well as fibrillarin. The binding characterization of this antibody was done using ELISA. (PMID: 8283044).

Antibody First Published in: Monestier et al. Molecular analysis of mercury-induced antinucleolar antibodies in H-2S mice. J Immunol. 1994 Jan 15;152(2):667-75. [PMID:8283044](#)

Note on publication: Describes the generation of antinuclear autoantibodies in mice after administration of mercury.

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
