Anti-Ciguatoxin CTX3C [10C9] Standard Size Ab03258-1.1

Isotype and Format: Mouse IgG1, Kappa

Clone Number: 10C9

Alternative Name(s) of Target: CTX; CTX3C; 51-hydroxy-CTX3C

UniProt Accession Number of Target Protein:

Published Application(s): neutralize, ELISA

Published Species Reactivity: Species independent

Immunogen: The original antibody was generated by immunizing mice with a synthetic hapten comprising ABCDE ring portion conjugated with KLH.

Specificity: This antibody specifically recognizes the ABCDE ring portion of ciguatoxin CTX3C and 51-OH-CTX3C. This antibody does not cross react with other toxins like brevetoxin A (BTX-A), brevetoxin B (BTX-B), okadaic acid (OA), and maitotoxin (MTX). Ciguatoxins are the major causative toxins of ciguatera seafood poisoning (CFP). Ciguatera is a foodborne illness caused by eating reef fish whose flesh is contaminated with ciguatoxins.

Application Notes: This antibody can be used to detect ciguatoxins in a sample using ELISA. It was also used in the development of a sandwich ELISA to detect CTX3C at the ppb level. Dissociation constant of this antibody for ciguatoxin CTX3C was $K_d = 2.8$ nM (PMID: 12812503). This antibody was also used in combination with another antibody 3D11 for effective neutralization of ciguatoxins in vitro and in vivo (PMID: 19254735).

Antibody First Published in: Oguri et al. Synthesis-based approach toward direct sandwich immunoassay for ciguatoxin CTX3C. J Am Chem Soc. 2003 Jun 25;125(25):7608-12. [PMID:12812503](#)

Note on publication: Monoclonal antibodies against both ends of ciguatoxins were generated for the development of sandwich immunoassay for detection of ciguatoxin CTX3C.

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic

procedures for humans or animals.
