## Anti-VISTA [11A4] Standard Size Ab03306-23.0

This chimeric rabbit antibody was made using the variable domain sequences of the original Mouse IgG2a format for improved compatibility with existing reagents assays and techniques.

**Isotype and Format:** Rabbit IgG, Kappa

**Clone Number:** 11A4

**Alternative Name(s) of Target:** PD-1H; V-Type Immunoglin Domain-Containing Suppressor of T-Cellactivation; Platelet receptor Gi24; Stress-induced secreted protein-1; Sisp-1; V-set domain-containing immunoregulatory receptor; V-set immunoregulatory receptor; D5L5T;CGMCCNO 20766

**UniProt Accession Number of Target Protein:** Q9H7M9

**Published Application(s):** WB, ELISA, IHC

**Published Species Reactivity:** Human

**Immunogen:** The original antibody was generated by immunizing a mouse with the recombinant VISTA protein.

**Specificity:** The antibody is specific for VISTA protein. VISTA is an immunoregulatory receptor which inhibits the T-cell response, which may promote differentiation of embryonic stem cells, by inhibiting BMP4 signaling.

**Application Notes:** The antibody 11A4 and the commercial antibody D5L5T were used to stain epithelial vascular sarcoma, placental trophoblasts and urethral carcinoma in immunohistochemistry. Results showed the antibody specificity is equivalent to the commercial antibody. Further, the staining intensity of the antibody 11A4 was higher than the commercial antibody (CN112940125A).

**Antibody First Published in:** [PMID:](#)

**Note on publication:**

### Product Form

**Size:** 200 µg Purified antibody.

**Purification:** Protein A affinity purified

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic

procedures for humans or animals.
