## Anti-CD61 [ABM58016-19H11-PU] Standard Size Ab03394-10.0

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG2a format for improved compatibility with existing reagents assays and techniques.

**Isotype and Format:** Human IgG1, Kappa

**Clone Number:** ABM58016-19H11-PU

**Alternative Name(s) of Target:** CGMCC NO.17490; Integrin b3; Platelet membrane glycoprotein IIIa; GPIIIa; GP3A; INGRB3; ITG B3; ITGB3; Integrin β3; Integrin beta-3; 2F2

**UniProt Accession Number of Target Protein:** P05106

**Published Application(s):** WB, ELISA, IHC

**Published Species Reactivity:** Human

**Immunogen:** The original antibody was generated by immunizing mice with CD61.

**Specificity:** The antibody is specific for CD61. CD61 is a 105kDa membrane glycoprotein expressed on platelets, megakaryocytes, osteoclasts and vascular endothelial cells.

**Application Notes:** The antibody specifically detected CD61 protein in Western blot analysis. The antibody AbM58016-19H11-PU and the commercial antibody 2F2 were used to stain bone marrow tissue and spleen tissue. Results showed the antibody specificity is comparable to the commercial antibody. Further, the sensitivity of the antibody AbM58016-19H11-PU was higher than the commercial antibody (CN111454360B).

**Antibody First Published in:** [PMID:](#)

**Note on publication:**

### Product Form

**Size:** 200 µg Purified antibody.

**Purification:** Protein A affinity purified

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic

procedures for humans or animals.
