Anti-PD-L1 [5H1] Standard Size Ab03442-23.0

This full-length chimeric rabbit antibody was made using the variable domain sequences of the original Mouse scFv format for improved compatibility with existing reagents assays and techniques.

Isotype and Format: Rabbit IgG, Kappa

Clone Number: 5H1

Alternative Name(s) of Target: CD274; PDL1; B7-H1; B7H1; B7 homolog 1; hPD-L1; PDCD1L1; PDCD1LG1; PDCD1 ligand 1; Programmed cell death 1 ligand 1; Programmed death ligand 1

UniProt Accession Number of Target Protein: Q9NZQ7

Published Application(s): ELISA, FC

Published Species Reactivity: Human

Immunogen:

Specificity: This antibody binds human PD-L1.

Application Notes: The scFV-Fc fragment of the antibody bound specifically to human PD-L1 protein as confirmed by ELISA analysis. ELISA traces showed that the scFV-Fc fragment produced by VSV-sa5H1-eGFP infected BHK cells bound specifically to huPDL1 protein. scFv-Fc fragment detected human PD-L1 expressed on the surface of human 624mel/B7-H1 cells by flow cytometry (US20190169296).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 200 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
