Anti-LAG-3 [209B1] Standard Size Ab03508-10.0

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG4 format for improved compatibility with existing reagents assays and techniques.

Isotype and Format: Human IgG1, Kappa

Clone Number: 209B1

Alternative Name(s) of Target: CD223; LAG3; FDC; Lymphocyte activation gene 3 protein

UniProt Accession Number of Target Protein: P18627

Published Application(s): inhibition, SPR

Published Species Reactivity: Human

Immunogen: The original antibody was generated by immunizing female BALB/c mice with Flag-his-tagged extracellular domain of LAG-3.

Specificity: The antibody is specific for human LAG-3.

Application Notes: The antibody is a humanized version of the mouse antibody MAB209B1. The binding affinity of the antibody to hLAG-3 was measured by surface plasmon resonance. The binding affinity of this antibody towards human LAG-3 was found to be $K_d = 7.7\text{pM}$. The antibody showed a good tumour inhibitory effect in in vivo application (WO2021136392).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
