Anti-LAG-3 [209B1] Standard Size Ab03508-10.3

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG4 format for improved compatibility with existing reagents assays and techniques.

Isotype and Format: Human IgG1, Fc Silent™, Kappa

Clone Number: 209B1

Alternative Name(s) of Target: CD223; LAG3; FDC; Lymphocyte activation gene 3 protein

UniProt Accession Number of Target Protein: P18627

Published Application(s): inhibition, SPR

Published Species Reactivity: Human

Immunogen: The original antibody was generated by immunizing female BALB/c mice with Flag-his-tagged extracellular domain of LAG-3.

Specificity: The antibody is specific for human LAG-3.

Application Notes: The antibody is a humanized version of the mouse antibody MAB209B1. The binding affinity of the antibody to hLAG-3 was measured by surface plasmon resonance. The binding affinity of this antibody towards human LAG-3 was found to be $K_d = 7.7\text{pM}$. The antibody showed a good tumour inhibitory effect in in vivo application (WO2021136392).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
