Anti-virus particles [P1D3] Standard Size Ab03520-30.11

This is an scFv fragment with a His tag.

Isotype and Format: scFv fragment (His), ScFv

Clone Number: P1D3

Alternative Name(s) of Target: WSSP

UniProt Accession Number of Target Protein:

Published Application(s): inhibition, ELISA

Published Species Reactivity: White spot syndrome virus

Immunogen: The original antibody was generated by immunizing mice with WSSV followed by antibody library construction and phage display-based selection.

Specificity: The antibody is specific for WSSV.

Application Notes: The binding specificity of the scFv antibody was determined by ELISA. The antibody inhibited virus attachment to the host cells (Yuan et al., 2006; PMID: 17140131).

Antibody First Published in: Yuan et al. Identification of a WSSV neutralizing scFv antibody by phage display technology and in vitro screening Dis Aquat Organ. 2006 Oct 17;72(2):93-9. [PMID:17140131](#)

Note on publication: The original paper describes the generation and characterization of the antibody by phage display method.

Product Form

Size: 50 µg Purified antibody.

Purification: Purified by Immobilized Metal Affinity Chromatography

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
