Anti-C3 [C3-2] Bulk Size Ab03806-10.0-BT

Isotype and Format: Human IgG1, Kappa

Clone Number: C3-2

Alternative Name(s) of Target: Anti-C3-2 mAb; third component of complement; Complement C3; C3 and PZP-like alpha-2-macroglobulin domain-containing protein 1

UniProt Accession Number of Target Protein: P01024

Published Application(s): inhibition, SPR, WB, ELISA

Published Species Reactivity: Human

Immunogen: The original antibody was generated by immunizing mice with purified human C3.

Specificity: The antibody interacts specifically with native C3, containing an intact thioester bond and not with an inactive form of C3, containing a hydrolysed ester bond. The epitope in part located on the 23kD- α -chain fragment of C3c.

Application Notes: The specificity of the original format of the antibody was confirmed by ELISA analysis. The binding affinity of the humanised version of the antibody to native C3 was measured by surface plasmon resonance ($K_d = 5.9$ nM). The murine and the humanised version of the antibody could inhibit the activation of C3 (WO2004031240A1).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
