## Anti-CD98 [18-2a 7.1] Standard Size Ab03834-1.1

**Isotype and Format:** Mouse IgG1, Kappa

**Clone Number:** 18-2a 7.1

**Alternative Name(s) of Target:** LAT1; E16; MPE16; SLC7A5

**UniProt Accession Number of Target Protein:** Q01650

**Published Application(s):** FACS, SPR

**Published Species Reactivity:** Human

**Immunogen:** The original antibody was generated by immunizing male 129S6/SvEv mice with human CD98 (huCD98)-expressing tumor cells.

**Specificity:** The antibody is specific for CD98.

**Application Notes:** Binding affinities of the murine and chimeric version of the antibody were determined using FACS analysis (Kd values between 0.9 nM and 4.5 nM). The chimeric antibody was also subjected to FACS analysis using three AML primary tumor samples and one cell line expressing cynomolgus monkey CD98 (cynCD98). The results demonstrated that the chimeric retained binding to human CD98 on AML cells and on cynCD98. The binding affinity of the murine, chimeric and humanized version of the antibody to CD98 was measured by surface plasmon resonance (JP2015501639A5).

**Antibody First Published in:** [PMID:](#)

**Note on publication:**

### Product Form

**Size:** 100 µg Purified antibody.

**Purification:** Protein A affinity purified

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
