Anti-CD28 [PV1] Standard Size Ab03857-2.0

Isotype and Format: Mouse IgG2a, Kappa

Clone Number: PV1

Alternative Name(s) of Target: T-cell-specific surface glycoprotein CD28; CD28 receptor

UniProt Accession Number of Target Protein: P31041

Published Application(s): IP, FC

Published Species Reactivity: Mouse

Immunogen: The antibody was generated using C57BL/6N mouse T cell lymphoma EL4 cell line as antigen.

Specificity: The antibody binds specifically to murine CD28.

Application Notes: CD28-positive murine T cell line EL4 cells were stained with the antibody and analyzed by flow cytometry (US20040116675A1). Protein lysates from J558 were immunoprecipitated with the antibody (Rozanski et al., 2015; PMID: 25833397). Anti-CD28-PV1-IgG3 is the hamster-mouse chimeric version of the antibody. The antibody enabled long-term survival of heart allografts in rats by reducing the activation of alloantigen-mediated key signaling events in T cells (Jang et al. 2008; PMID: 18408588).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
