Anti-proBNP [106.3] Standard Size Ab03869-1.1

Isotype and Format: Mouse IgG1, Kappa

Clone Number: 106.3

Alternative Name(s) of Target: BNP; hBNP; NPPB; preproBNP; B-type natriuretic peptide; Natriuretic peptides B; Brain natriuretic factor prohormone; Brain natriuretic peptide; Gamma-brain natriuretic peptide; Iso-ANP; HB-12044

UniProt Accession Number of Target Protein: P16860

Published Application(s): ELISA

Published Species Reactivity: Human

Immunogen: The original mouse antibody was generated by immunizing mice with human BNP peptide 5-13 (VQGSGAFGR) conjugated with BSA.

Specificity: This antibody binds B-type natriuretic peptide (BNP) 5-13 (VQGSGAFGR). BNP is a naturally secreted cardiac regulatory hormone that influences blood pressure and vascular water retention in human physiology. The plasma BNP concentration is a clinically recognized biomarker for various cardiovascular diseases.

Application Notes: This antibody can be used for the detection of human BNP using ELISA (PMID: 18606632). This antibody when crosslinked to POROS XL ID resin can also be used in the immunoprecipitation of BNP from plasma samples of patients with chronic heart failure (PMID: 16750161).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
