## Anti-N protein [2D7] Bulk Size Ab03891-23.0-BT

**Isotype and Format:** Rabbit IgG, Kappa

**Clone Number:** 2D7

**Alternative Name(s) of Target:** MVNP; N; NP; rMeN; Nucleoprotein; Nucleocapsid protein; Protein N

**UniProt Accession Number of Target Protein:** Q89933

**Published Application(s):** WB, ELISA, IHC

**Published Species Reactivity:** Measles virus

**Immunogen:** The original antibody was generated by immunizing BALB/c mice with recombinant Measles virus N protein.

**Specificity:** This antibody recognizes a conformational epitope located between amino acids 419-525 in the rMeN.

**Application Notes:** This antibody can be used for detecting the presence of measles virus in a sample using and IgG/IgM ELISA. The binding of this antibody to measles virus could be inhibited by measles IgG-positive human serum in a competitive ELISA (WO2009124378). This antibody was used for the detecting of measles virus N protein from nuclear extracts and cell lysates using western blot (PMID: 21195346; 22383906). This antibody was also used in the immunohistochemical staining of osteoclasts (OCL) derived from marrow cells obtained from a normal individual, Paget's disease (PD) patient and MVNP mouse (PMID: 21195346).

**Antibody First Published in:** [PMID:](#)

**Note on publication:**

### Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:** Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
