Anti-Mucin-17 [AbAb-MUC17] Bulk Size Ab03906-10.0-BT

Isotype and Format: Human IgG1, Kappa

Clone Number: AbAb-MUC17

Alternative Name(s) of Target: MUC17; MUC-17; MUC3; MUC-3; Small intestinal mucin-3

UniProt Accession Number of Target Protein: Q685J3

Published Application(s): FC, IHC

Published Species Reactivity: Human, Cynomolgus Monkey

Immunogen: The original antibody was generated by immunizing B6 mice with whole CHO cells transiently expressing huMUC17.

Specificity: This antibody specifically recognizes the membrane bound human and cynomolgus monkey mucin-17, which is a membrane-bound mucin that provides protection to gut epithelial cells from carcinogenic effects of chronic inflammation. It is also indicated that mucin-17 is highly expressed in gastric cancer specimens and is a compelling target for prognosis of gastric cancer.

Application Notes: This antibody can be used for the detection of surface bound human MUC17 using flow cytometry. This antibody is recommended for staining formalin-fixed paraffin-embedded human and cynomolgus monkey tissues using immunohistochemistry (WO2021188851).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
