Anti-MCPS [2055.5.C14] Standard Size Ab03924-10.3

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This is a reformatted human IgG1 Fc Silent Fc Silent™ antibody, based on the original human IgG3 format, created for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Human IgG1, Fc Silent™, Kappa

Clone Number: 2055.5.C14

Alternative Name(s) of Target: Neisseria meningitidis group C capsular polysaccharide

UniProt Accession Number of Target Protein:

Published Application(s): ELISA

Published Species Reactivity: Neisseria meningitidis

Immunogen: The original antibody was generated by immunizing mice with bacteria encapsulated with the native MCPS (strain C11).

Specificity: The original antibody is specific for Neisseria meningitidis group C capsular polysaccharide.

Application Notes: The specificity of the original format of the antibody was confirmed by ELISA analysis (Rubinstein et al., 1988; PMID: 3143763).

Antibody First Published in: Rubinstein et al. Murine immune response to the Neisseria meningitidis group C capsular polysaccharide. II. Specificity J Immunol. 1988 Dec 15;141(12):4357-62. [PMID:3143763](#)

Note on publication: The original paper describes the generation of a panel of monoclonal antibodies against Neisseria meningitidis group C capsular polysaccharide

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
