Anti-anti-BSW17 [Clone 52] Bulk Size Ab03967-23.0-BT

Isotype and Format: Rabbit IgG, Kappa

Clone Number: Clone 52

Alternative Name(s) of Target: BSW17 mimetic antibody; anti-idiotypic-BSW17

UniProt Accession Number of Target Protein:

Published Application(s): in vivo, inhibition, SPR, ELISA

Published Species Reactivity: Human

Immunogen: The original antibody was isolated from a human antibody library by panning against BSW17.

Specificity: The antibody specifically binds to BSW17.

Application Notes: The specificity of the antibody for BSW17 was determined by ELISA analysis. The antibody was able to induce the production of anti-mimic antibodies in vivo. After the second booster immunization of the antibody preparation, all mice produced antibodies against the mock antibody. The binding affinity of the antibody to IgE was measured by surface plasmon resonance ($K_d = 5.0 \pm 2.2$ nM for Myeloma IgE and $K_d = 6.0 \pm 1.8$ nM for SUS-11IgE). Vaccination of rhesus monkeys by the antibody could inhibit passive skin allergy reaction (CN1268644C).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
