Anti-CTLA-4 [N-1] Standard Size Ab04077-10.3

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This is a reformatted human IgG1 Fc Silent Fc Silent™ antibody, based on the original human IgG1 format, created for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Human IgG1, Fc Silent™, Kappa

Clone Number: N-1

Alternative Name(s) of Target: CD152; Cytotoxic T-lymphocyte protein 4; Cytotoxic T-lymphocyte-associated antigen 4

UniProt Accession Number of Target Protein: P16410

Published Application(s): ELISA

Published Species Reactivity: Human

Immunogen: The original antibody was isolated from a phage antibody library by panning against CTLA-4.

Specificity: The antibody specifically binds CTLA-4.

Application Notes: The specificity of the antibody was confirmed by ELISA analysis. The antibody had good affinity and good bioactivity, could be specifically combined with a CTLA-4 antigen, is capable of improving the activity and proliferation of T cells (CN110655579B).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
