Anti-v5-tag protein [AbAb-V5] Standard Size Ab04087-23.0

Isotype and Format: Rabbit IgG

Clone Number: AbAb-V5

Alternative Name(s) of Target: v5-tagged proteins

UniProt Accession Number of Target Protein:

Published Application(s): ELISA

Published Species Reactivity: Simian virus

Immunogen: The original antibody was generated by immunizing Alxa Bactrian camels with synthetic V5 tag polypeptide (GKPIPPLLGLDST) coupled with hemocyanin (V5-KLH). A single-domain antibody library was constructed and the antibody isolated by panning against V5 tag protein.

Specificity: The antibody is specific for V5 tag protein. The V5 tag protein is a peptide segment containing 14 amino acids, deriving from the 95th-108th amino acid of the α subunit of Simian virus 5 RNA polymerase.

Application Notes: The specificity of the antibody was confirmed by ELISA analysis (CN109438577B).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
