Anti-RANK-L [RL] Bulk Size Ab04142-23.0-BT

Isotype and Format: Rabbit IgG, Lambda

Clone Number: RL

Alternative Name(s) of Target: CD254; TRANCE; RANKL; ODF; OPGL; Tumor necrosis factor ligand superfamily member 11; Osteoclast differentiation factor; Osteoprotegerin ligand; Receptor activator of nuclear factor kappa-B ligand; TNF-related activation-induced cytokine

UniProt Accession Number of Target Protein: O14788

Published Application(s): Blocking, ELISA

Published Species Reactivity: Human

Immunogen: The original antibody was generated by panning a Fab library against RANKL.

Specificity: The antibody is specific for human-RANK-L. RANKL is a tumor necrosis factor (TNF)-related protein that binds to, and activates, the TNF receptor (TNFR)-related protein Receptor Activator of NF-kB (RANK). RANKL acts as the key cytokine that regulates osteoclast differentiation and activation during normal bone remodeling and during disease.

Application Notes: The original antibody was capable of blocking the interactions between RANKL and its receptor RANK. The original antibody could potentially be used in an ELISA analysis (WO2015030701A1)

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
