Anti-hepsin [Mab53] Bulk Size Ab04144-23.0-BT

Isotype and Format: Rabbit IgG, Lambda

Clone Number: Mab53

Alternative Name(s) of Target: Serine protease hepsin; EC:3.4.21.106; Transmembrane protease serine 1

UniProt Accession Number of Target Protein: P05981

Published Application(s): ELISA

Published Species Reactivity: Human

Immunogen: The antibody is the humanized version of the murine Mab 2.7.35.

Specificity: The antibody is specific for hepsin. Human hepsin is a Type II serine transmembrane protease and belongs to the trypsin family of serine proteases. Hepsin was identified by homology screening of a human liver cDNA library in 1988. It plays an important role in cell growth and maintenance of cell line morphology

Application Notes: The specificity of the antibody was confirmed by ELISA analysis (WO2011161189A1).

Antibody First Published in: [PMID:](#)

Note on publication:

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
