Anti-panfilovirus glycoprotein [8C12F11] Bulk Size Ab04166-23.0-BT

Isotype and Format: Rabbit IgG, Kappa

Clone Number: 8C12F11

Alternative Name(s) of Target: GP1,2; GP; filovirus; filovirus Gp; Envelope glycoprotein

UniProt Accession Number of Target Protein: Q66810

Published Application(s): ELISA

Published Species Reactivity: panfilovirus

Immunogen: The original antibody was generated by immunizing BALB/c mice with the conserved B cell epitope of filovirus Gp.

Specificity: The antibody is specific for panfilovirus glycoprotein. The antibody targets the epitope (YEAGEWAENCY, dubbed peptide 2) conserved across all ebolavirus spp glycoproteins (GP).

Application Notes: The antibody can potentially be used in ELISA analysis (Plewczynski et al., 2023).

Antibody First Published in: Plewczynski et al. Sequencing, cloning and expression of the panfilovirus glycoprotein specific recombinant mAb 8C12F11 in a CHO mammalian cell line Preprint from Research Square, 01 Feb 2023. DOI: 10.21203/rs.3.rs-2532766/v1 PPR: PPR611013 [PMID:](#)

Note on publication: The paper describes the generation and characterization of the antibody.

Product Form

Size: 1 mg Purified antibody in bulk size.

Purification: Protein A affinity purified

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
