Anti-human TL1A [MTLG6] Standard Size Ab04202-3.3

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This is a reformatted mouse IgG2b Fc Silent™ antibody, based on the original mouse IgG2b format, created for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Mouse IgG2b, [Fc Silent™](#), Kappa

Clone Number: MTLG6

Alternative Name(s) of Target: MTLA5; TL1; TNF-like ligand 1A; Tumor necrosis factor superfamily member 15; TNF superfamily member 15; TNFSF15; Vascular endothelial growth inhibitor; VEGI; VEGI192A; TNLG1B

UniProt Accession Number of Target Protein: O95150

Published Application(s): FACS, WB, ELISA, IF, IHC

Published Species Reactivity: Human

Immunogen:

Specificity: This antibody is specific for human TL1A.

Application Notes: The original format of this antibody (mouse IgG2b, κ) was used to detect human TL1A in WB, IHC, and IF (Bamias et al., 2011; PMID: 21672030). Furthermore, the biotinylated version of this antibody was used to detect human TL1A in a quantitative ELISA (Kim et al., 2012; PMID: 22647538). This antibody is suitable for use in FACS (unpublished results of Dr. Sunghee Kim).

Antibody First Published in: Kim et al. Specific elevation of DcR3 in sera of sepsis patients and its potential role as a clinically important biomarker of sepsis *Diagn Microbiol Infect Dis.* 2012 Aug;73(4):312-7. doi: 10.1016/j.diagmicrobio.2012.04.008 [PMID:22647538](#)

Note on publication: The original publication investigates the potential of soluble decoy receptor 3 (DcR3) as a clinically important biomarker for sepsis.

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -

20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
