Anti-human Galectin 9 [2E12] Standard Size Ab04375-1.1

Isotype and Format: Mouse IgG1, Kappa

Clone Number: 2E12

Alternative Name(s) of Target: Galectin-9; Gal-9; LGALS9; Ecalectin; Tumor antigen HOM-HD-21

UniProt Accession Number of Target Protein: O00182

Published Application(s): therapeutic, WB, ELISA

Published Species Reactivity: Human

Immunogen: The original antibody was generated by immunizing BALB/c mice with a recombinant c-terminus galectin-9 (residues 191 to 355 of the galectin-9 long isoform).

Specificity: This antibody is specific for human Gal-9.

Application Notes: The binding of the original format of this antibody to c-terminus Gal-9 was assessed via ELISA. This antibody detected Gal-9 in a WB assay (Barjon et al., 2012; PMID: 22805533). An scFv-CAR version of this antibody with therapeutic potential was developed and described (US20230295564A1).

Antibody First Published in: Barjon et al. A novel monoclonal antibody for detection of galectin-9 in tissue sections: application to human tissues infected by oncogenic viruses. Infect Agent Cancer. 2012 Jul 17;7(1):16. [PMID:22805533](#)

Note on publication: The original publication presents the development of monoclonal antibodies targeting galectin-9.

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
