Anti-Major capsid protein L1 [28F10] Standard Size Ab04420-2.3

This antibody was created using our proprietary Fc Silent™ engineered Fc domain containing key point mutations that abrogate binding to Fc gamma receptors.

This is a reformatted mouse IgG2a Fc Silent™ antibody, based on the original mouse IgG2a format, created for improved compatibility with existing reagents, assays and techniques.

Isotype and Format: Mouse IgG2a, [Fc Silent™](#), Kappa

Clone Number: 28F10

Alternative Name(s) of Target: L1; ORF putative L1; Major capsid protein L1

UniProt Accession Number of Target Protein: Q81971

Published Application(s): crystallography, SPR

Published Species Reactivity: Human papillomavirus 59

Immunogen: The original version of this antibody was raised by immunizing a mouse with HPV58 and HPV59 VLPs.

Specificity: This antibody is specific for the HPV59 FG loop of a single monomer.

Application Notes: The original version of this antibody was used for surface plasmon resonance on HPV58 and HPV59 pentamers. The structure of the antibody was determined using x-ray diffraction. Further the structure of the antibody was determined using cryo-EM (Zhihai et al., 2017; PMID:28951471).

Antibody First Published in: Li et al. Crystal Structures of Two Immune Complexes Identify Determinants for Viral Infectivity and Type-Specific Neutralization of Human Papillomavirus mBio. 2017 Sep 26;8(5):e00787-17. [PMID:28951471](#)

Note on publication: The original paper shows that the epitopes of A12A3 are clustered in the DE loops of two adjacent HPV58 L1 monomers, whereas 28F10 recognizes the HPV59 FG loop of a single monomer.

Product Form

Size: 100 µg Purified antibody.

Purification: Protein A affinity purified

Supplied In: PBS with 0.02% Proclin 300.

Storage Recommendation: Store at 4°C for up to 3 months. For longer storage, aliquot and store at -

20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
