Anti-Nucleoprotein [MARV-A] Bulk Size Ab04431-1.29-BT

This is a Fab fragment with a his-tag.

Isotype and Format: Mouse Fab fragment, His-Tagged

Clone Number: MARV-A

Alternative Name(s) of Target: NP; Protein N; Nucleoprotein; Nucleocapsid protein

UniProt Accession Number of Target Protein: P27588

Published Application(s): in vitro, WB, ELISA

Published Species Reactivity: Lake Victoria marburgvirus

Immunogen: The original antibody was raised by immunizing a llama with the Marburgvirus Nucleoprotein.

Specificity: This antibody is specific for the Marburgvirus Nucleoprotein.

Application Notes: The original version of this antibody was used for an ELISA on nucleoprotein from polio (Garza et al., 2017; PMID:29038656, Darling et al., 2017; PMID:29021793). The monomeric and dimeric version of this antibody were used for a western blot on HEK 293T cells (Garza et al., 2017; PMID:29038656). Furthermore the ability of this antibody to crosslink nucleoprotein (NP) in vitro was tested (Darling et al., 2017; PMID:29021793).

Antibody First Published in: Darling et al. Intracellular Crosslinking of Filoviral Nucleoproteins with Xintrabodies Restricts Viral Packaging Front Immunol. 2017; 8: 1197. [PMID:29021793](#)

Note on publication: The original paper studied whether RNC would be ideal targets for crosslinkers engineered to promote aberrant protein-protein interactions.

Product Form

Size: 500 µg Purified antibody in bulk size.

Purification: Purified by Immobilized Metal Affinity Chromatography

Supplied In: PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
