## Anti-Tudor and KH domain-containing protein [anti-TDRKH-RAB-C143] Ab04450-10.29

This is a Fab fragment with His tag.

**Isotype and Format:** Human Fab fragment, His-Tagged, Kappa

**Clone Number:** anti-TDRKH-RAB-C143

**Alternative Name(s) of Target:** TDRKH; TDRD2; Tudor domain-containing protein 2

**UniProt Accession Number of Target Protein:** Q9Y2W6

**Published Application(s):** crystallography, ELISA, IF

**Published Species Reactivity:** Human

**Immunogen:** The original antibody was raised by panning against a phage-display library using recombinant TDRD2 eTudor.

**Specificity:** This antibody is specific for human Tudor and KH domain-containing protein.

**Application Notes:** The original antibody was used for an ELISA on recombinant TDRD2 eTudor. The structure of the original antibody was determined using x-ray crystallography. This antibody was used for a pull-down assay on TDRD2 eTudor domain (Chen et al., 2020; PMID:31288074). This antibody was used for immunofluorescence on different human cell lines. This antibody showed staining of the cytoplasm for all cell lines tested (Hornsby et al., 2015; PMID:26290498).

**Antibody First Published in:** Hornsby et al. A High Through-put Platform for Recombinant Antibodies to Folded Proteins Mol Cell Proteomics. 2015 Oct;14(10):2833-47. [PMID:26290498](#)

**Note on publication:** The original paper describes an industrialized platform to generate antigens and validated recombinant antibodies for 346 transcription factors (TFs) and 211 epigenetic antigens.

### Product Form

**Size:** 100 µg Purified antibody.

**Purification:** Purified by Immobilized Metal Affinity Chromatography

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note - This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
