Anti-Major capsid protein L1 [H263.A2] Bulk Size Ab04466-1.29-BT

This is a Fab fragment with a his-tag.

Isotype and Format: Mouse Fab fragment, His-Tagged, Kappa

Clone Number: H263.A2

Alternative Name(s) of Target: L1; Human papillomavirus type 16

UniProt Accession Number of Target Protein: P03101

Published Application(s): neutralization, ELISA

Published Species Reactivity: Human papillomavirus

Immunogen: The original antibody was raised by immunizing a BALB/c mouse with HPV-16 or HPV-18 L1 VLPs.

Specificity: This antibody is specific for an epitope with amino acids 266–297 and 339–365 being essential residues.

Application Notes: The fab version of this antibody was used a neutralization assay, in short both a pre- and post-virus attachment assay was performed on 293TT cells with pseudo virus. The structure of this antibody was determined using cryo-EM (Guan et al., 2015; PMID:25996608). This antibody was used for an ELISA on HPV VLPs (Zhao et al., 2012; PMID:22356831, Rizk et al., 2008; PMID:18089735), and on L1-only VLPs or L1/L2 pseudo virions (Culp et al., 2007; PMID:17222883). This antibody was used for a neutralization assay on 293TT cells that were then infected with the antibody VLP mixture (Rizk et al., 2008; PMID:18089735), a similar experiment was performed on A431 cells (Culp et al., 2007; PMID:17222883).

Antibody First Published in: Christensen et al. Surface Conformational and Linear Epitopes on HPV-16 and HPV-18 L1 Virus-like Particles as Defined by Monoclonal Antibodies *Virology*. 1996 Sep 1;223(1):174-84.

[PMID:8806551](#)

Note on publication: The original paper generated a panel of 24 monoclonal antibodies (MAbs) against human papillomavirus (HPV) types 16 and 18 L1 virus-like particles (VLPs).

Product Form

Size: 500 µg Purified antibody in bulk size.

Purification: Purified by Immobilized Metal Affinity Chromatography

Supplied In:

PBS only.

Storage Recommendation: Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

Concentration: 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
