Datasheet

SLC3A2 monoclonal antibody, clone FG1/8 (PerCP)

Catalog Number: MAB15378

Regulatory Status: For research use only (RUO)

Product Description: Mouse monoclonal antibody raised against human SLC3A2.

Clone Name: FG1/8

Immunogen: T cells from leukemic HPB-ALL.

Host: Mouse

Theoretical MW (kDa): 125

Reactivity: Human

Applications: Flow Cyt

(See our web site product page for detailed applications information)

Protocols: See our web site at

<http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Conjugation: PerCP

Purification: Affinity purification

Isotype: IgG1

Recommend Usage: Flow Cytometry (20 μ L/ 10^6 cells)

The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS, pH 7.4 (protein stabilizer, 0.09% sodium azide).

Storage Instruction: Store in the dark at 4°C.

Entrez GeneID: 6520

Gene Symbol: SLC3A2

Gene Alias: 4F2, 4F2HC, 4T2HC, CD98, CD98HC, MDU1, NACAE

Gene Summary: This gene is a member of the solute carrier family and encodes a cell surface, transmembrane protein with an alpha amylase domain. The protein exists as the heavy chain of a heterodimer, covalently bound through di-sulfide bonds to one of several possible light chains. It associates with integrins and mediates integrin-dependent signaling related to normal cell growth and tumorigenesis. Alternate transcriptional splice variants, encoding different isoforms, have been characterized. [provided by RefSeq]
