## Datasheet

### VCL recombinant monoclonal antibody, clone R04-8F9

**Catalog Number:** RAB01196

**Regulatory Status:** For research use only (RUO)

**Product Description:** Rabbit recombinant monoclonal antibody raised against human VCL.

**Clone Name:** R04-8F9

**Immunogen:** Original antibody is raised against a synthetic peptide corresponding to human Vinculin.

**Theoretical MW (kDa):** Calculated MW: 124 k

**Antibody Species:** Rabbit

**Protocols:** See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

**Form:** Liquid

**Purification:** Affinity purification

**Isotype:** IgG

**Recommend Usage:** Western Blot

Immunocytochemistry

Immunofluorescence

Immunoprecipitation

The optimal working dilution should be determined by the end user.

**Storage Buffer:** In 50mM Tris-Glycine pH 7.4 (0.15M NaCl, 40% Glycerol, 0.01% Sodium azide and 0.05% BSA)

**Storage Instruction:** Store at 4°C. For longer storage, aliquot and store at -20°C.

Aliquot to avoid repeated freezing and thawing.

**Entrez GeneID:** 7414

**Gene Symbol:** VCL

**Gene Alias:** CMD1W, MVCL

**Gene Summary:** Vinculin is a cytoskeletal protein associated with cell-cell and cell-matrix junctions, where it is thought to function as one of several interacting proteins involved in anchoring F-actin to the membrane. Defects in VCL are the cause of cardiomyopathy dilated type 1W. Dilated cardiomyopathy is a disorder characterized by ventricular dilation and impaired systolic function, resulting in congestive heart failure and arrhythmia. Multiple alternatively spliced transcript variants have been found for this gene, but the biological validity of some variants has not been determined. [provided by RefSeq]
