Datasheet

MERTK recombinant monoclonal antibody

Catalog Number: RAB02690

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against MERTK.

Immunogen: Original antibody is raised against recombinant MERTK.

Theoretical MW (kDa): 110, 180

Antibody Species: Rabbit

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Specificity: This antibody detects endogenous levels of MerTK and does not cross-react with related proteins.

Form: Liquid

Purification: Protein A purification

Isotype: IgG

Recommend Usage: Immunohistochemistry (1:50-1:200)
Western Blot (1:1000-1:2000)
The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS, pH7.2 (50% glycerol and 0.02% sodium azide)

Storage Instruction: Store at 4°C short term.
Aliquot and store at -20°C long term.
Avoid freeze-thaw cycles.

Entrez GeneID: 10461

Gene Symbol: MERTK

Gene Alias: MER, MGC133349, RP38, c-mer

Gene Summary: This gene is a member of the

MER/AXL/TYRO3 receptor kinase family and encodes a transmembrane protein with two fibronectin type-III domains, two Ig-like C2-type (immunoglobulin-like) domains, and one tyrosine kinase domain. Mutations in this gene have been associated with disruption of the retinal pigment epithelium (RPE) phagocytosis pathway and onset of autosomal recessive retinitis pigmentosa (RP). [provided by RefSeq]
