## Datasheet

### **PTEN recombinant monoclonal antibody, clone PTENS380-NA9 (APC)**

**Catalog Number:** RAB02991

**Regulatory Status:** For research use only (RUO)

**Product Description:** Rabbit recombinant monoclonal antibody raised against human PTEN.

**Clone Name:** PTENS380-NA9

**Immunogen:** A synthetic phospho peptide corresponding to residues surrounding Ser380 of human phospho PTEN

**Antibody Species:** Rabbit

**Protocols:** See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

**Form:** Liquid

**Conjugation:** APC

**Purification:** Protein A purification, Protein G purification

**Isotype:** IgG

**Recommend Usage:** Flow Cytometry  
The optimal working dilution should be determined by the end user.

**Storage Buffer:** 1X PBS, 0.09% Sodium azide, 0.2% BSA

**Storage Instruction:** Store at 4°C. Do not freeze.

**Entrez GeneID:** 5728

**Gene Symbol:** PTEN

**Gene Alias:** 10q23del, BZS, MGC11227, MHAM, MMAC1, PTEN1, TEP1

**Gene Summary:** This gene was identified as a tumor suppressor that is mutated in a large number of cancers

at high frequency. The protein encoded this gene is a phosphatidylinositol-3,4,5-trisphosphate 3-phosphatase. It contains a tensin like domain as well as a catalytic domain similar to that of the dual specificity protein tyrosine phosphatases. Unlike most of the protein tyrosine phosphatases, this protein preferentially dephosphorylates phosphoinositide substrates. It negatively regulates intracellular levels of phosphatidylinositol-3,4,5-trisphosphate in cells and functions as a tumor suppressor by negatively regulating AKT/PKB signaling pathway. [provided by RefSeq]
