Datasheet

VCAM1 recombinant monoclonal antibody, clone B-K9 (C106-K9)

arthritis. Two alternatively spliced transcripts encoding different isoforms have been described for this gene. [provided by RefSeq]

Catalog Number: RAB03147

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against human VCAM1.

Clone Name: B-K9 (C106-K9)

Immunogen: Original antibody is raised against activated human umbilical vein endothelial cells.

Antibody Species: Rabbit

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Isotype: IgG

Recommend Usage: Blocking
Flow Cytometry
Immunofluorescence
The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS with 0.02% Proclin 300

Storage Instruction: Store at 4°C for up to 3 months.
For longer storage, aliquot and store at -20°C.
Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 7412

Gene Symbol: VCAM1

Gene Alias: CD106, DKFZp779G2333, INCAM-100, MGC99561

Gene Summary: This gene is a member of the Ig superfamily and encodes a cell surface sialoglycoprotein expressed by cytokine-activated endothelium. This type I membrane protein mediates leukocyte-endothelial cell adhesion and signal transduction, and may play a role in the development of atherosclerosis and rheumatoid
