Datasheet

DDR1 recombinant monoclonal antibody, clone 3E3

Catalog Number: RAB03413

Regulatory Status: For research use only (RUO)

Product Description: Mouse recombinant monoclonal

antibody raised against human DDR1.

Clone Name: 3000

Immunogen: Original antibody is raised against the

extracellular domain of human DDR1.

Antibody Species: Mouse

Protocols: See our web site at

http://www.abnova.com/support/protocols.asp or product

page for detailed protocols

Form: Liquid

Isotype: IgG1 kappa

Recommend Usage: Blocking

ELISA

Western Blot

The optimal working dilution should be determined by

the end user.

Storage Buffer: In PBS with 0.02% Proclin 300

Storage Instruction: Store at 4°C for up to 3 months.

For longer storage, aliquot and store at -20°C. Aliquot to avoid repeated freezing and thawing.

Entrez GenelD: 780

Gene Symbol: DDR1

Gene Alias: CAK, CD167, DDR, EDDR1, MCK10, NEP,

NTRK4, PTK3, PTK3A, RTK6, TRKE

Gene Summary: Receptor tyrosine kinases (RTKs) play a key role in the communication of cells with their microenvironment. These molecules are involved in the regulation of cell growth, differentiation and metabolism. The protein encoded by this gene is a RTK that is widely expressed in normal and transformed epithelial cells and

is activated by various types of collagen. This protein belongs to a subfamily of tyrosine kinase receptors with a homology region to the Dictyostelium discoideum protein discoidin I in their extracellular domain. Its autophosphorylation is achieved by all collagens so far tested (type I to type VI). In situ studies and Northernblot analysis showed that expression of this encoded protein is restricted to epithelial cells, particularly in the kidney, lung, gastrointestinal tract, and brain. In addition, this protein is significantly over-expressed in several human tumors from breast, ovarian, esophageal, and pediatric brain. This gene is located on chromosome 6p21.3 in proximity to several HLA class I genes. Alternative splicing of this gene results in multiple transcript variants. [provided by RefSeq]
