Datasheet

IL6 recombinant monoclonal antibody, clone 2M8M3

Catalog Number: RAB03589

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against human IL6.

Clone Name: 2M8M3

Immunogen: Original antibody is raised against *Escherichia coli*-derived human IL-6 protein, amino acids Pro29-Met212.

Antibody Species: Rabbit

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Purification: Affinity purification

Concentration: 1 mg/mL

Isotype: IgG

Recommend Usage: ELISA

The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS, pH 7.4

Storage Instruction: Store at 2 to -8°C for 1 month. For long term storage(1 year), aliquot and store at -20 to -80°C.

Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 3569

Gene Symbol: IL6

Gene Alias: BSF2, HGF, HSF, IFNB2, IL-6

Gene Summary: This gene encodes a cytokine that functions in inflammation and the maturation of B cells. The protein is primarily produced at sites of acute and

chronic inflammation, where it is secreted into the serum and induces a transcriptional inflammatory response through interleukin 6 receptor, alpha. The functioning of this gene is implicated in a wide variety of inflammation-associated disease states, including susceptibility to diabetes mellitus and systemic juvenile rheumatoid arthritis.
