Datasheet

L3MBTL1 recombinant monoclonal antibody, clone RAB-C213

Catalog Number: RAB03619

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against human L3MBTL1.

Clone Name: RAB-C213

Immunogen: Original antibody is raised against L3MBTL1 protein under non-denaturing conditions.

Antibody Species: Rabbit

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Isotype: IgG

Recommend Usage: ChIP

ELISA

Flow Cytometry

Immunofluorescence

The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS (0.02% Proclin 300)

Storage Instruction: Store at 4°C for 3 months. For long term storage, aliquot and store at -20°C. Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 26013

Gene Symbol: L3MBTL

Gene Alias: DKFZp586P1522, FLJ41181, H-L(3)MBT, KIAA0681, L3MBTL1, dJ138B7.3

Gene Summary: This gene encodes the homolog of a protein identified in *Drosophila* as a suppressor of malignant transformation of neuroblasts and ganglion-mother cells in the optic centers of the brain. This gene product is localized to condensed chromosomes in

mitotic cells. Overexpression of this gene in a glioma cell line results in improper nuclear segregation and cytokinesis producing multinucleated cells. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq]
