Datasheet

MSLN recombinant monoclonal antibody, clone IC14-30

mesothelin. Alternative splicing results in multiple transcript variants. [provided by RefSeq]

Catalog Number: RAB03643

Regulatory Status: For research use only (RUO)

Product Description: Mouse recombinant monoclonal antibody raised against human MSLN.

Clone Name: IC14-30

Immunogen: Original antibody is raised against the purified recombinant protein corresponding to human MSLN.

Antibody Species: Mouse

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Isotype: IgG1 kappa

Recommend Usage: ELISA
The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS (0.02% Proclin 300)

Storage Instruction: Store at 4°C for 3 months. For long term storage, aliquot and store at -20°C. Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 10232

Gene Symbol: MSLN

Gene Alias: CAK1, MPF, SMR

Gene Summary: An antibody that reacts with ovarian cancers and mesotheliomas was used to isolate a cell surface antigen named mesothelin. Although the function of mesothelin is unknown, it may play a role in cellular adhesion and is present on mesothelium, mesotheliomas, and ovarian cancers. This gene encodes a preproprotein that is cleaved into two products, megakaryocyte potentiating factor and
