Datasheet

TAGLN recombinant monoclonal antibody, clone SAIC-33B-129

Catalog Number: RAB03875

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against synthetic peptide corresponding to peptide "AAEDYGVIK", derived from the actin cross-linking protein Transgelin, conjugated to KLH.

Clone Name: SAIC-33B-129

Immunogen: Original antibody is raised against a synthetic peptide corresponding to peptide "AAEDYGVIK", derived from the actin cross-linking protein Transgelin, conjugated to KLH.

Sequence: AAEDYGVIK

Antibody Species: Rabbit

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Conjugation: Unconjugated

Concentration: batch dependent

Isotype: IgG

Recommend Usage: ELISA

Flow cytometry

Immunofluorescence

Immuno-MRM

Western Blot

The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS with 0.02% Proclin 300

Storage Instruction: Store at 4°C for 3 months. For long term storage store at -20°C. Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 6876

Gene Symbol: TAGLN

Gene Alias: DKFZp686P11128, SM22, SMCC, TAGLN1, WS3-10

Gene Summary: The protein encoded by this gene is a transformation and shape-change sensitive actin cross-linking/gelling protein found in fibroblasts and smooth muscle. Its expression is down-regulated in many cell lines, and this down-regulation may be an early and sensitive marker for the onset of transformation. A functional role of this protein is unclear. Two transcript variants encoding the same protein have been found for this gene. [provided by RefSeq]
