## Datasheet

### HSPD1 recombinant monoclonal antibody, clone 3D8

**Catalog Number:** RAB03974

**Regulatory Status:** For research use only (RUO)

**Product Description:** Rabbit recombinant monoclonal antibody raised against human and mouse HSPD1.

**Clone Name:** 3D8

**Immunogen:** Original antibody is raised against recombinant protein corresponding to full length human HSPD1.

**Antibody Species:** Rabbit

**Protocols:** See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

**Form:** Liquid

**Purification:** Affinity-chromatography

**Isotype:** IgG

**Recommend Usage:** ELISA

Immunohistochemistry (1:50-1:200)

Immunoprecipitation(1:200-1:1000)

Western Blot (1:500-1:5000)

The optimal working dilution should be determined by the end user.

**Storage Buffer:** In PBS, pH7.4 (150mM NaCl, 50% glycerol and 0.02% sodium azide)

**Storage Instruction:** store at -20 °C or -80 °C. Aliquot to avoid repeated freezing and thawing.

**Entrez GeneID:** 3329

**Gene Symbol:** HSPD1

**Gene Alias:** CPN60, GROEL, HLD4, HSP60, HSP65, HuCHA60, SPG13

**Gene Summary:** This gene encodes a member of the chaperonin family. The encoded mitochondrial protein

may function as a signaling molecule in the innate immune system. This protein is essential for the folding and assembly of newly imported proteins in the mitochondria. This gene is adjacent to a related family member and the region between the 2 genes functions as a bidirectional promoter. Two pseudogenes, both located on chromosome 8, have been associated with this gene. Two transcript variants encoding the same protein have been identified for this gene. Mutations associated with this gene cause autosomal recessive spastic paraplegia 13. [provided by RefSeq]
