Datasheet

NUF2 recombinant monoclonal antibody, clone R06-9Q1

Catalog Number: RAB05240

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against human Nuf2.

Clone Name: R06-9Q1

Immunogen: Original antibody is raised against recombinant protein corresponding to human Nuf2

Theoretical MW (kDa): Calculated MW: 54 kD

Antibody Species: Rabbit

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Purification: Affinity purification

Isotype: IgG

Recommend Usage: Flow cytometry (1/50-1/100)

Immunofluorescence (1/50-1/200)

Western Blot (1/500-1/1000)

The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS, 150 mM NaCl, pH 7.4 (50% glycerol and 0.02% Sodium azide)

Storage Instruction: Store at 4°C. For long term storage store at -20°C.

Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 83540

Gene Symbol: NUF2

Gene Alias: CDCA1, NUF2R

Gene Summary: This gene encodes a protein that is highly similar to yeast Nuf2, a component of a conserved

protein complex associated with the centromere. Yeast Nuf2 disappears from the centromere during meiotic prophase when centromeres lose their connection to the spindle pole body, and plays a regulatory role in chromosome segregation. The encoded protein is found to be associated with centromeres of mitotic HeLa cells, which suggests that this protein is a functional homolog of yeast Nuf2. Alternatively spliced transcript variants that encode the same protein have been described. [provided by RefSeq]
