Datasheet

SMARCC1 recombinant monoclonal antibody, clone R03-8Z1

Catalog Number: RAB05249

Regulatory Status: For research use only (RUO)

Product Description: Rabbit recombinant monoclonal antibody raised against human SMARCC1.

Clone Name: R03-8Z1

Immunogen: Original antibody is raised against recombinant protein corresponding to human SMARCC1

Theoretical MW (kDa): Calculated MW: 123 k

Antibody Species: Rabbit

Protocols: See our web site at <http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Form: Liquid

Purification: Affinity purification

Isotype: IgG

Recommend Usage: Flow cytometry (1/50-1/100)

Immunofluorescence (1/50-1/200)

Immunoprecipitation (1/20)

Western Blot (1/500-1/1000)

The optimal working dilution should be determined by the end user.

Storage Buffer: In PBS, 150 mM NaCl, pH 7.4 (50% glycerol and 0.02% Sodium azide)

Storage Instruction: Store at 4°C. For long term storage store at -20°C.

Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 6599

Gene Symbol: SMARCC1

Gene Alias: BAF155, CRACC1, Rsc8, SRG3, SWI3

Gene Summary: The protein encoded by this gene is a

member of the SWI/SNF family of proteins, whose members display helicase and ATPase activities and which are thought to regulate transcription of certain genes by altering the chromatin structure around those genes. The encoded protein is part of the large ATP-dependent chromatin remodeling complex SNF/SWI and contains a predicted leucine zipper motif typical of many transcription factors. [provided by RefSeq]
