Product Number	ARP55339_P050-FITC
Product Page	www.avivasysbio.com/gdf2-antibody-middle-region-fitc-arp55339-p050-fitc.html
Name	GDF2 Antibody - middle region : FITC (ARP55339_P050-FITC)
Protein Size (# AA)	429 amino acids
Molecular Weight	47kDa
Conjugation	FITC: Fluorescein Isothiocyanate
NCBI Gene Id	2658
Host	Rabbit
Clonality	Polyclonal
Concentration	0.5 mg/ml
Gene Full Name	Growth differentiation factor 2
Alias Symbols	BMP9, HHT5, BMP-9
Peptide Sequence	Synthetic peptide located within the following region: CFEPLADDVTPTKHAIVQTLVHLKFKPTKVGKACCVPTKLSPIVLYKDDM
Product Format	Liquid. Purified antibody supplied in 1x PBS buffer.
Reference	David,L., (2008) Circ. Res. 102 (8), 914-922
Description of Target	GDF2 is a member of the bone morphogenetic protein (BMP) family and the TGF-beta superfamily. This group of proteins is characterized by a polybasic proteolytic processing site which is cleaved to produce a mature protein containing seven conserved cysteine residues. The members of this family are regulators of cell growth and differentiation in both embryonic and adult tissues. Studies in rodents suggest that this protein plays a role in the adult liver and in differentiation of cholinergic central nervous system neurons. The protein encoded by this gene is a member of the bone morphogenetic protein (BMP) family and the TGF-beta superfamily. This group of proteins is characterized by a polybasic proteolytic processing site which is cleaved to produce a mature protein containing seven conserved cysteine residues. The members of this family are regulators of cell growth and differentiation in both embryonic and adult tissues. Studies in rodents suggest that this protein plays a role in the adult liver and in differentiation of cholinergic central nervous system neurons.
Protein Interactions	BMPR2; ACVR2B; ACVR2A;
Reconstitution and Storage	All conjugated antibodies should be stored in light-protected vials or covered with a light protecting material (i.e. aluminum foil). Conjugated antibodies are stable for at least 12 months at 4C. If longer storage is desired (24 months), conjugates may be diluted with up to 50% glycerol and stored at -20C to -80C. Freezing and thawing conjugated antibodies will compromise enzyme activity as well as antibody binding.
Datasheets/Manuals	Printable datasheet for anti-GDF2 (ARP55339_P050-FITC) antibody
Blocking Peptide	For anti-GDF2 (ARP55339_P050-FITC) antibody is Catalog # AAP55339 (Previous Catalog # AAPP33211)
Immunogen	The immunogen is a synthetic peptide directed towards the middle region of human GDF2
Uniprot ID	Q9UK05
Protein Name	Growth/differentiation factor 2
Protein Accession #	NP_057288
Purification	Affinity Purified
Nucleotide Accession #	NM_016204
Gene Symbol	GDF2
Predicted Species Reactivity	Human, Mouse, Rat, Cow, Dog, Guinea Pig, Horse, Pig, Rabbit, Zebrafish
Application	WB

Predicted Homology Based on Immunogen Sequence	Cow: 100%; Dog: 93%; Guinea Pig: 86%; Horse: 100%; Human: 100%; Mouse: 100%; Pig: 100%; Rabbit: 100%; Rat: 100%; Zebrafish: 100%
