Description of Target	The exact function of this protein remains unknown. The protein is weakly similar to transposase-like proteins in human and mouse. This gene encodes a protein of unknown function. The protein is weakly similar to transposase-like proteins in human and mouse.
Protein Interactions	SUMO1P1; FAM200A; RBM39; APP;
Reconstitution and Storage	All conjugated antibodies should be stored in light-protected vials or covered with a light protecting material (i.e. aluminum foil). Conjugated antibodies are stable for at least 12 months at 4C. If longer storage is desired (24 months), conjugates may be diluted with up to 50% glycerol and stored at -20C to -80C. Freezing and thawing conjugated antibodies will compromise enzyme activity as well as antibody binding.
