Peptide Sequence	Synthetic peptide located within the following region: HSIATQKKKVGVIPPKKFITRLRKENELEFDNYMQQDAHEFLNYLLNTIAD
Product Format	Liquid. Purified antibody supplied in 1x PBS buffer.
Description of Target	Usp12 is a deubiquitinating enzyme. It has almost no deubiquitinating activity by itself and requires the interaction with WDR48 to have a high activity. It is not involved in deubiquitination of monoubiquitinated FANCD2.
Reconstitution and Storage	All conjugated antibodies should be stored in light-protected vials or covered with a light protecting material (i.e. aluminum foil). Conjugated antibodies are stable for at least 12 months at 4C. If longer storage is desired (24 months), conjugates may be diluted with up to 50% glycerol and stored at -20C to -80C. Freezing and thawing conjugated antibodies will compromise enzyme activity as well as antibody binding.
