

## Produktinformation

Forschungsprodukte & Biochemikalien

Zellkultur & Verbrauchsmaterial

Diagnostik & molekulare Diagnostik

Laborgeräte & Service

Weitere Information auf den folgenden Seiten! See the following pages for more information!

#### Lieferung & Zahlungsart

siehe unsere Liefer- und Versandbedingungen

### Zuschläge

- Mindermengenzuschlag
- Trockeneiszuschlag
- Gefahrgutzuschlag
- Expressversand

Product Format Liq	
	iquid. Purified antibody supplied in 1x PBS buffer.
Description of Target   moreg   least   100   Cu	The protein encoded by this gene is a member of the S100 family of proteins containing 2 EF-hand calcium-binding notifis. S100 proteins are localized in the cytoplasm and/or nucleus of a wide range of cells, and involved in the egulation of a number of cellular processes such as cell cycle progression and differentiation. S100 genes include at east 13 members which are located as a cluster on chromosome 1q21. This protein has a Ca2+ affinity 20- to 00-fold higher than the other S100 proteins studied under identical conditions. This protein also binds Zn2+ and Cu2+, and Cu2+ strongly which impairs the binding of Ca2+. This protein is expressed in very restricted regions of the adult brain.
Protein Interactions S10	100A5;
Reconstitution and storage mo	all conjugated antibodies should be stored in light-protected vials or covered with a light protecting material (i.e. luminum foil). Conjugated antibodies are stable for at least 12 months at 4C. If longer storage is desired (24 nonths), conjugates may be diluted with up to 50% glycerol and stored at -20C to -80C. Freezing and thawing onjugated antibodies will compromise enzyme activity as well as antibody binding.
Datasheets/Manuals Prin	rintable datasheet for anti-S100A5 (ARP56529_P050-Biotin) antibody
Blocking Peptide For	for anti-S100A5 (ARP56529_P050-Biotin) antibody is Catalog # AAP56529
Immunogen The	he immunogen is a synthetic peptide directed towards the N-terminal region of Human S10A5
Uniprot ID P3	33763
Protein Name pro	rotein S100-A5
Purification Aff	Affinity Purified
Gene Symbol S10	<u>100A5</u>
Predicted Species Reactivity	Iuman, Mouse, Rat, Cow, Dog, Guinea Pig, Horse, Rabbit
Application WI	VB
Predicted Homology Based on Immunogen Sequence  Co 100	Cow: 100%; Dog: 100%; Guinea Pig: 100%; Horse: 100%; Human: 100%; Mouse: 100%; Rabbit: 100%; Rat:

AVIVA SYSTEMS BIOLOGY manufactures and sells quality antibody products covering genome wide proteins.

This product is for Research Use Only. Not for diagnostic, human, or veterinary use. Optimal conditions of its use should be determined by end users.
